

Mr. (Prof.) Arthouros Zervos

President European Renewable Energy Council (EREC), President European Wind Energy Association (EWEA), President of Global Wind Energy Council (GWEC), CEO & President of Public Power Corporation (PPC)

Prof. Zervos holds a Bachelor and a Master Degree in Engineering from the Department of Aerospace and Mechanical Sciences of Princeton University, U.S.A. as well as a DEA and a Dr. (Diplome d' Etudes Approfondies de Mecanique Experimentale des Fluides – Aerodynamique) of the University P. et M. Curie, Paris, France.

Prof. Zervos is President of EREC, the European Renewable Energy Council, the umbrella organisation of the leading European industry, trade and research associations, representing all sectors of renewable energy (wind, PV, biomass, small hydropower, solar thermal, geothermal) as well as President of the European Wind Energy Association (EWEA) and the recently created Global Wind Energy Council (GWEC).

Prof. Zervos has substantially contributed to the EU White Paper "Energy for the future: Renewable Sources of Energy" and has more than 25 years of experience in the field of policy advice for renewable energy sources.

Since December 2009, Prof. Zervos acts as President & CEO of Public Power Corp (PPC), Greece's biggest electricity provider
