

Dr. Michael Geyer,
Director, Abengoa, Spain

Since 1981, Mr. Geyer has been involved with activities dedicated to the development of renewable energy systems with special emphasis on solar power plant technologies, including positions as researcher and deputy director at the German Aerospace Agency (DLR) departments in Stuttgart and the Plataforma Solar de Almeria in Spain (1981-1989). From 2001 until 2007 he was responsible for the solar thermal project development of the AndaSol projects of the Solar Millennium Group in Spain. Currently he is the Director for International Business Development of Abengoa Solar S.A., the solar division of the Spanish Abengoa group. From September 2000 until March 2008 he served as the Executive Secretary of the IEA Solar-PACES implementing agreement, which represents the international Solar Thermal Community of R&D institutions. Since November 2007 he has been elected Vice-President of the European Solar Thermal Electricity Association ESTELA. He is author or co-author of more than 60 publications in the mentioned fields, including technical books, journals, conference papers, studies and reports.
