

Mr. (Dr) Vivek Tandon

Founder and General Partner, Aloe Private Equity

Dr Vivek Tandon, Founder and General Partner of Aloe Private Equity, is an experienced international executive and proven entrepreneur with an in-depth background in building technology start-up companies.

Prior to Aloe, Vivek co-founded a number of high technology companies including VICOM Group International. He has held several senior executive management positions including Viventures (a USD\$700m Venture Capital Fund as UK Managing Director), CIENA, Kymata, British Telecommunications PLC and Motorola.

Vivek is vice-chairman of Allied Technology Group, a 140 person environmental engineering company, focused on waste water treatment, air pollution treatment for power plants and coal gasification with revenues of US\$120m in 2006. He also sits on the boards of Maxsys, Recupyl and Greenko Group.

He has a BSc in Physics from Imperial College and a PhD from University of London (UCL). He holds several patents and has published many papers.
